President's Message #2.....

I had the opportunity to attend the 2016 NRA Annual Meeting in Louisville, KY a few weeks ago; it was great to see over 82,000 like-minded pro Second Amendment supporters in one location. The meeting was a brisk reminder of the 2016 political environment and consistent challenges from politicians attacking our rights as gun owners. The battle never ends. The recent tragic terrorist events in Orlando have only intensified the gun control debate. As mentioned in the previous newsletter, please go out and vote in 2016! It is anticipated the next President of the US will select three new Supreme Court justices.

South Dakota Governor signs into law changes for the SD Concealed Carry Permit. The "Gold Card" was created to bypass the need for a NICS background check when purchasing a firearm in SD. ND concealed carry holders have enjoyed this freedom for years. Starting Jan 1, 2017, The SD Gold Card concealed carry permit will become available and is expected to gain ATF approval to negate a firearms purchase required background check.

Thanks to the DTGCA leadership and membership in helping support this bill in the SD Legislature, SD will now become the 27th state to have a provision for NICS exempt background checks for firearms purchases. Currently, 10% of all FBI NICS background checks in SD are "delayed", which makes for a real challenge at the DTGCA Gun shows to learn five days later that the background check is approved.

Enjoy your summer and we look forward to seeing you soon!

Sincerely,

Brandon I. Maddox

The Art of Collecting

SERIES II: HOW TO DISPLAY

Of the 14 shows sponsored by the DTGCA, 10 shows offer display tables to be judged. Eligibility for competition of a display table is as simple as contacting the show manager or signing up your display at the show. What is not so simple are the display competition rules and regulations that must be followed to ensure your display is eligible. Let's review.

EDUCATIONAL FACTORS

All displays must have a TITLE OR THEME

Is the title accurate and pertinent to the display

Are the individual items being displayed related to each other and the theme

Are there catalogs, pictures, accessories or other items to further the purpose of the display

Each item in the display should have an educational appeal to the viewer. Item (s) should be identified by labels or some other means so viewer can learn from and understand what they see.

Can the novice and advanced collector alike learn from the display

COLLECTOR IMPORTANCE

Rarity or survival rate. Are the item (s) displayed rare, or are they seen at every show? *Rare means a degree of scarcity.* For example: A one of a kind item is very rare, but a serial number (1) is only one item in series. It is not rare.

Is there documentation to support the historical importance of the item (s)

Are there Special Features of the item (s) displayed, i.e. engraving, coloration, wood quality, available accessories, etc

Condition of the display varies from "As New" to "Used in the field". If restored, quality of the restoration or completeness of the item (s) will be reviewed.

DISPLAY METHOD

Does the display show uniqueness with good use of artifacts, material and space which will be evident in the creativity of the display?

Appearance should be original in design or the original factory design.

All identification should show specialties or specifics.

APPEAL TO THE VIEWER

Is the overall appearance of the display appealing to the eye and an attention grabber?

Is the Value of your display known – Historical, Functional, and Artistic?

Is the display surround captured in the display appearance?

The last series will be: **SERIES III: HOW TO PRESERVE, INSURE AND PASS ON YOUR COLLECTION**
